

## BLOCS Calendar

# Professional Learning Community

The BLOCStar Professional Learning Community (formerly called the BLOCS Network Provider Meeting) is held on the second Thursday of the month from 10:00 a.m. to 12:00 noon. This event series presents an opportunity for youth service providers to share and learn about the Youth Program Quality Intervention (YPQI) process and implementation. Participants will take a deep dive into the nut and bolts of quality improvement using the YPQI tool and process. Each month, the learning community will focus on a particular topic related to the program quality assessment tool and/or process. Facilitators will strive to make this a focused, facilitated conversation where youth service providers have an opportunity to share their successes, challenges, and experiences related to their quality improvement efforts.

Light refreshments and drinks are provided.

Date/Time	Location
